

EMCOL

MPI Equipment

GP3 Bench Unit

- 3000 Amp AC + HWDC + MF Bench Unit
- Recirculating Ink System
- Versatile Head System
- Suitable for Aerospace & General Applications
- Can be made with cables, clamps and other attachments

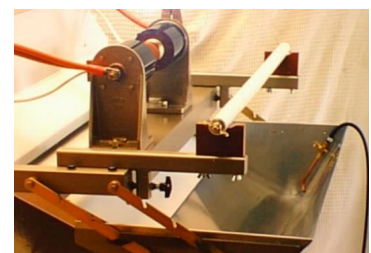

The versatility of the EMCOL GP 3 makes it ideally suited to batch inspection work such as Aerospace and for training in addition to production work.

The headstocks are fully adjustable and will accept a number of attachments such as the ring clamping kit, mini heads, larger heads and “forward facing threading bar.”

The head versatility is complemented by drain tray adjustment allowing rings, shafts and other larger components to be tested on this machine.
